PROFESSIONAL SUMMARY

Software developer with 5+ years of experience delivering production web and mobile applications with React Native, React, TypeScript, and Next.js. Builds products end to end—from application architecture and reusable UI systems to REST API integration, backend development, cloud deployment, and iOS/Android releases. Experience spans e-commerce, booking and scheduling, clinic management, dashboards, and real-time interfaces.

TECHNICAL SKILLS

Core: React Native, React, JavaScript, TypeScript, Next.js, React Hooks, responsive UI

Mobile & delivery: Android Studio, Xcode, iOS/Android app deployment, App Store, Google Play, Lottie

State & data: Redux Toolkit, RTK Query, Redux Persist, Redux, React Context, MobX, Zustand

Backend & APIs: Node.js, Express.js, MongoDB, Mongoose, REST APIs, Axios, WebSocket

UI & forms: Formik, Yup, CSS, SCSS, Tailwind CSS, Material UI, Styled Components

Tools & infrastructure: Git, GitHub, Postman, Jira, Google Cloud VM, hosting, npm, yarn

PROFESSIONAL EXPERIENCE

Founder & Full-Stack Developer — Gifta.ge | ***Tbilisi, Georgia*** | ***May 2026–Present***

- Founded and developed a web and mobile platform for exchanging and gifting items, taking ownership of architecture, development, and production delivery.
- Built the Next.js web application and React Native mobile experience, integrated with a Node.js/Express.js API and MongoDB/Mongoose data layer.
- Managed Google Cloud VM hosting and deployment workflows, and worked with Xcode, Android Studio, App Store, and Google Play distribution.

Freelance Full-Stack Developer — Self-employed | ***Remote*** | ***Jul 2025–Present***

- Deliver custom web and mobile applications using React, React Native, Next.js, TypeScript, Node.js, Express.js, and MongoDB.
- Implement reusable UI components, authenticated/API-driven user flows, responsive dashboards, form validation, and application state management.

Frontend Software Engineer — Calendo | ***Remote*** | ***Jan 2025–Jul 2025***

- Built a React-based booking and scheduling web application from the ground up with reusable UI components and maintainable frontend architecture.
- Implemented responsive forms, availability and scheduling workflows, and integration with Laravel-based APIs and libraries.

Frontend Software Engineer — Altera | ***Remote*** | ***Oct 2023–Jan 2025***

- Developed production web and mobile applications using React, React Native, JavaScript, and TypeScript.
- Designed reusable component systems, integrated APIs, implemented state management and validation, and supported debugging and feature delivery.

React Native Developer — IdeoDigital | *Remote* | *Aug 2023–Aug 2024*

- Led a React Native rewrite of the LeoYourSkincare mobile application, improving structural consistency and maintainability.
- Built the EspressoClub mobile application from scratch, including architecture, reusable components, API handling, and e-commerce user flows.

React & React Native Developer — NLYC | *Hybrid* | *Nov 2022–Mar 2023*

- Delivered React and React Native features for PSP Pharmacy, BetliveClub, and BlueChipSport, including UI implementation and integrations.

Frontend Developer — Mego.ge | *Remote* | *Oct 2021–Apr 2023*

- Owned web and mobile frontend development, building application structures, screens, reusable components, and API integrations.

SELECTED TECHNICAL PROJECTS

- Booking & scheduling: date/time availability, working-hour restrictions, blocked ranges, and state-synchronized scheduling rules.
- E-commerce & clinic systems: product listings, cart and checkout flows, management dashboards, appointments, role-based interfaces, and API-backed forms.
- Real-time interfaces: WebSocket-based trade-stream dashboards with filtering and live UI updates.

EDUCATION

Ilia State University — Bachelor of Business & Technology (2016–2021) | Level One Front-end Development Course (2020–2021)
